- 2) Once you decide on your Pool Design and Gel-coat color, request a turnkey quote by email or we can come visit you at your home for a more detailed and informed quote
- 3) After you receive your Quote you will need to submit your property survey to us so we can decide what size pool fits, where your pool will be installed and identify any build lines or utility works. We will do a site visit to identify access and establish pool location
- 4) Secure financing from one of the following links or from your preferred lender
